Parade Shaping Up Well

Raymond will have the biggest and most spectacular parade ever witnessed locally says F. R. Taylor, Parade Chairman, if those promising floats, decorated cars, tractors, etc., all come, as well as private citizens through. Merchants and business are cooperating 100 per cent with the committee and even from Lethbridge comes promise of cars and trucks to participate in the big show.

The contestants for the Stampede, cowboys, cowgirls, and officials, bicycles, in fact everything imaginable has a place in the parade, which will be accompanied by two bands, the Salvation Army band of Lethbridge and the Cardston Citizens band, both will take part in the parade and also in the program in the morning.

We had hoped to have the lineup of the parade, but the Committee decided not to insert this as circumstances may necessitate after the arrangements, but one of the bands will head the parade, just behind the Marshal of the Day and the Mounted Police who attend, and then will likely come the floats followed by the cars, trucks, bicycles, etc. You will have a place in the Parade if you will take part and the committee & Stampede officials are hoping everyone will do their bit to make the Parade the success it should be.

THE BIG PARADE will be assembled in the streets leading to the Stake House and march east to Broadway, turn north to the end of Broadway and back to the Town Hall corner.

MORNING PROGRAM,

JULY 1ST.

Band Selection.
"O Canada" by band and Congregation.
Patriotic Reading — Miss Louise Heninger.
Prayer—Mayor D. H. Elton, Lethbridge.
Band Selection.
"God Save the King."

This program is planned for the corner at the Town Hall. As it will be brief it is expected that everyone will want to hear through. Merchants and business have an amplifier on the spot so that all may hear what is said. 11 a.m. is the hour for the program, or before if the Parade finishes before that time.

NEWS NOTES

Mr. and Mrs. W. L. Jones are comfortably located now in the H. S. Allen block above the post office and are at home to their friends, following their recent honeymoon to the Waterton National Park.

Hedwig Ann Haupt, eight, was killed at the family home in Innisfail on Saturday. Her brother took the gun down from the wall of the barn, and not thinking it was loaded, pointed it at his sister and pulled the trigger, and she was killed almost instantly. The coroner decided it as a clear case of accidental death and that no inquest was necessary.

The Stake Priesthood meeting on Sunday was featured by Convention reports from Messrs. A. J. Walton and Ira McBride, and Paul L. Dahl and C. S. Matkin. All of them reported a very enjoyable convention and mentioned especially the good behavior of the Canadian Scouts and the honors that were shown them by officers of the Convention.

BANK OF MONTREAL CROP REPORT No. 3

GENERAL

Crop conditions throughout the Dominion continue the favorable progress which has marked the season to date, prospects in general being satisfactory and over large areas excellent. In the Prairie Provinces moisture conditions are satisfactory over most of the main wheat growing areas and crops on the whole are making good growth. In some regions, however, particularly northern Alberta, northern Saskatchewan and parts of southern Manitoba, precipitation has been light, crops are suffering from lack of moisture and good rains are urgently needed to halt deterioration. Grasshoppers, cutworms and wireworms have caused some damage in scattered districts of Alberta & Saskatchewan. In Quebec Province field crops and tree fruits are doing well, though additional rainfall is needed over wide areas. In Ontario crop prospects generally are excellent, with grains, canning crops, hay crops, small fruits, apples and tobacco progressing satisfactorily. In the Maritime Provinces warm weather and rains have benefited crops generally and prospects are good for both field and fruit crops. In British Columbia early hay crops are light grain crops are making satisfactory growth, and fruit crops generally are in good condition, but rain is needed in all districts.

PRAIRIE PROVINCES

Alberta—Favorable weather has promoted rapid growth and the condition of the crops generally is satisfactory, although rain is badly needed in northwestern Alberta, including the Peace River district, and in the northeast districts, also in some areas in the extreme south. In other districts there is sufficient moisture so far, but general rains are required soon. Grasshoppers are active in central and southern areas, but damage has been slight. Pasture is good. Sugar beets are growing well.

Saskatchewan—General crop conditions continue satisfactory. Wheat is stooling well and coarse grains have germinated evenly. Lack of moisture in the northern districts, and at scattered points in the southwest and extreme southeast, has caused some damage to wheat crops and good rains are needed immediately to check further deterioration. Grasshoppers are numerous and cutworms and wireworms have injured crops in some districts.

Manitoba—Crops generally are making satisfactory progress, particularly in the west central and northwestern areas. The wheat plant is about 8 in. high and stooling well. In the southern part of the province crops are in need of moisture and good rains are now required to prevent deterioration. Pastures are in good condition.

Myron T. Wall was a business visitor in Cardston on Monday last.

Leonard Watson returned home Friday night from his school year at the B.Y.U. He was a speaker in the Sunday School Sunday morning.

The Caliope of the Canadian Crescent Shows arrived in town at noon Wednesday and announced themselves and their show in the early evening. Neighboring towns were also visited and vertising both the show and the Stampede.

Let 'Er Buck

Folks, the stage is all set for the biggest and best Stampede Raymond has ever had, on Friday and Saturday, and we don't mean maybe. From the salutes in the early morning hours until the dance closes at night there will be something doing every minute. Committees have worked unceasingly to get things tied up and oiled so they will work smoothly and so far as it can be told in advance everything will be ready.

Word was received Wednesday morning that four fleet footed race horses are coming down from Calgary for the two day race meet. Meek's have two horses ready for the grind, and D. M. Powelson, Dad Bingham and other race horse owners including the Haggie horses are all ready to go. For lovers of this sort, this should assure excitement a plenty. The bad horses are all ready to do their stuff, and Ray has about 35 new ones that have been tried out at the ranch, and are pronounced full of fight and real buckers.

One of the Committee visited the midway which was performing at Claresholm Tuesday night and pronounced the attraction as apparently clean, wholesome and well managed. So far as officials of the show can learn the Canadian Crescent Shows maintain a very high standard and come highly recommended.

Two baseball games are also scheduled. Cardston will be here on the evening of Dominion Day and the Lethbridge Miners will back horns with the Raymond nine on the night of the 2nd. A Dance at the Blue Moo Pavilion will conclude each days activities and on the evening of the first a display of fireworks will be staged.

A public address system is installed and has been tried out several times, so that every person on the grounds should be able to hear everything that goes on as it goes on. Unless some unexpected developments occur we should have the best celebration ever staged locally and that is what the Board of Trade and Stampede officials are hoping for.

We hope to have the details of the morning program and further information about the mammoth parade in this issue when we contact the Committee Chairman.

NEWS NOTES

Irving Hall is visiting with relatives here for awhile.

Mothers, enjoy the Stampede. Leave your small children and babies at Boyson's.

A. D. Woolley is getting up and around the Hospital grounds in Lethbridge and will soon be home.

Wm. Jensen left the first of the week for visit in Utah, and will bring his wife and daughter home with him.

H. McKean has been staying close at home for the past couple of weeks following the extraction of his upper molars.

A birthday dinner party was held at the H. P. Schneider farm home Wednesday, in honor of the 69th birthday anniversary of Mrs. George Fromm. Congratulations Mrs. Fromm.

Ciril Culjak passed away Friday from a ruptured appendix. Funeral services were held in the Catholic church on Tuesday with Rev. Father Daphinal in charge. Christensen Bros. had charge at the cemetery.

Workmen were busy Friday and Saturday laying a cement sidewalk along the north side of the old Brewerton block and in front of the new buildings which will likely be open for Stampede days.

Very little information was given out at the close of the two day Social Credit caucus in Edmonton this week. The 7 p.m. production tax was discussed and may come in for revision or withdrawal at the next session of the parliament, likely next year.

The Sunday evening program in the Raymond 2nd Ward was presented by the members of the Sunday School Missionary class, of which Wm. A. Anderson is teacher. Speakers were Misses Ruth Evans and Virginia Heninger, and Paul Fairbanks and Brandon Smith. Fay Walker conducted the program, which was greatly enjoyed by the large audience present.

Miss Leatrice Seoville is visiting in Cardston with her sister Mrs. Leorne McNaughton.

S. B. Card and Son had the Service Station painted this week brightening up the colors again.

Stampede with the babies to Boyson's Nursery, then go to the Stampede and enjoy it more. Read the ad.

The Municipal planer was busy this week on the road to Welling, scurfifying and planing this stretch of road down in expectation of a great many Stampede visitors.

Warner received 2.6 inches of rain late Wednesday night in a cloudburst which struck the town, flooding cellars and washing out culverts and even a piece of the C.P.R. roadbed.

Mrs. J. A. Brinn of Boise and Mrs. A. J. Nielson of Pocatello, Idaho, and son, are visiting for a part of the summer Mrs. Elsie Stevens and other relatives and friends in the Raymond district.

John F. Salmon and his men were busy repairing a bridge across the canal near George Court's farm home. The bridge went down last week when a big load was taken over it and is being replaced by a larger and a stronger one.

Lee Brewerton, L. D. Kir-Loren Larson, L. L. Palmer and S. I. May were in Cardston on Monday where they attended the Rotary Luncheon advertising the Raymond Stampede there and then scattered some advertising up and down the street.

Hail on Monday afternoon in Pincher Creek, Glenwood, and Warner districts did serious damage to crops, pounding them right into the ground, and chickens were killed by the stones in some places. Heavy rains followed the hail and it is expected that fields will recover and will yield a partial crop despite the severe pounding of Monday.

Careful Please

POULSEN BABY PASSES AWAY

Douglas, the sixteen month old baby boy of Mr. and Mrs. Persy Poulsen passed away very suddenly Saturday evening in the Lethbridge Hospital. The little tot had been ailing since birth, some of its gland apparently having failed to develop, as consequence of which it had no use of its arms or legs. Every thing possible had been done for it, but to no avail.

The funeral services were held in the Stake House Monday afternoon with Bishop J. O. Hicken of the Raymond First Ward in charge and the Ward Choir, with W. W. McMullin conducting, doing the singing. Special numbers were Vocal solos by Miss Dorothy Nurse and Jos. McLean.

Speakers were Pres. M. T. King, Elder Earl Barker and Bishop Hicken, all of whom offered words of comfort and consolation to the bereaved parents in their sorrow and spoke of the resurrection, and the assurance of this child of celestial glory because of his having died in innocence and purity. The invocation was by Elder O. H. Snow and the benediction by Elder C. R. Wing of the First Ward Bishopric.

There was a profusion of beautiful flowers covering the casket and the rectorium, and a large number accompanied the remains to the cemetery where interment was made.

Hail hit the Cardston district in some points Sunday last, 100 a.c. losses reported in some field. Taylorville, Carway and Hill Spring districts seemed to be hit the worst. It is expected that many of the fields will come back and make a good crop although the grain is completely cut off right now.

MR. ARNOLD ROBERTSON

Mr. Arnold Robertson, well known in Canadian Peace circles and the son of Sir Hugh Robertson, the noted Scottish music critic who was until recently adjudicating at musical festivals in Western Canada, will speak at United Church Tuesday July 5th at 8 p.m.

He will lecture on the tragic emergency which is facing the victims of the Japanese aggression in China Spain and other parts of the world, and will link this up with the responsibility of peace loving Canadians who wish to check the mad plans of the war makers. The speaker, illustrates the lecture with vivid and instructive talking moving pictures from the Orient. The program consists of the feature "CHINA STRIKES BACK!" which depicts the development of Chinese resistance in the interior, and the building of the peoples army. There are also scenes of the bombing of Shanghai. The League has also secured the film "GERMANY IN VADES AUSTRIA", an authentic new reel of Hitler's seizure of that country, which brings out distinctly another phase of the international Fascist attack against world freedom.

This program has been touring Alberta under the auspices of the Alberta Council of the Canadian League for Peace and Democracy, and has had the enthusiastic reception of people in all the main centers. Leading churchmen, mayors and other officials have participated. The funds will be used for the maintenance of the League Medical Unit which has been established in China by Dr. Norman Bethune another Canadian Doctor and Nurse Jane Ewen of Vancouver.

If Dominion Day is a repetition of past holidays, vast crowds will congregate on Raymond and our streets and roads will be literally filled with cars, trucks, horse draw vehicles and people on horseback for Canada's National day.

It would be a splendid thing if we in Raymond would resolve that for Dominion Day at least we would do unto others as we would that others should do unto us, especially in the matter of safety and courtesy on the road. It would take a tremendous load off the shoulders of our peace officers if they could feel that every Raymond citizen would use his best efforts to prevent any sort of traffic jam, accident or inconvenience to visitors from other towns.

As Raymondites we should remember that these people are here as our guests and should be treated in such a way that they will want to come again and will enjoy themselves while here. A moderate speed on all streets, caution when coming to intersections and extreme caution when turning, or backing up would be a great factor in the safety of the town during that day.

Will you all cooperate with traffic officers and other drivers and Careful! Please!

WHERE IS OUR RESPECT

The Veterans are busy this week re-decorating the Memorial at the Town Hall grounds. A fresh coat of paint was applied Tuesday evening and sometime during the night some person or persons daubed their hands on the wet paint and absolutely spoiled the efforts made.

It is really too bad that we have not sufficient respect for this Memorial and what it stands for that we cannot cooperate in keeping it looking attractive and respectable tribute to the men and boys who gave their all for freedom. Local veterans were indignant, as well they might be, and threatened prosecution of any offender that was apprehended. We are in sympathy with them, but sincerely hope that such drastic steps may not be necessary, and that this appeal & warning will be all that is necessary to anyone to get them to respect this monument and join with the veterans in trying to keep it looking its best.

LEE BREWERTON

HEADS ROTARY

A small attendance was present Monday night at Rotary. The feature of the meeting was installation of officers for the coming year, the executives will be as follows:

President—Lee Brewerton.
Vice Pres.—C. R. Wing.
Sec. Treas.—W. L. Jones.
The various committees will be announced later.

Retiring President A. H. Zabriskie reviewed the activities of the Club during the past year. Two of the high lights being the entrance of the former Out post into Rotary, and the work that has been further done on the Swimming Pool.

President Lee in his remarks expressed his willingness to do all he could to further the work of the Club, and as a speaker on the evening program, related some of the high lights of his trip to Detroit after his new car, and also some points of the recent Banff Convention. A very enjoyable meeting was held despite the slim attendance.

DOMINION DAY

Seventy one years ago today the four provinces of Nova Scotia, New Brunswick and Ontario and Quebec, known as Upper and Lower Canada respectively were united into a whole & became known as the Dominion of Canada. After numerous discussions, many of them acridly heated, and rifts which nearly set the various provinces against one another because of the climatic, geographical and racial problems, which made each section's question just a little different than that of any other. It required vision, patience, tolerance and sagacity to unite and solidify the various elements that made up Canada. The Father of Confederation had this, and Sir John A. Mac Donald, a household word to all Canadians, became the first Prime Minister of Canada.

What a vast and glorious change seventy one years of Canadian history has brought. Today we have a union of nine provinces stretching 3,000 miles from sea to sea, embracing all most every known industry and art containing a heterogeneous collection of people from the face of the globe to weld them into a united Canada. When one permits their imagination to travel, the panorama of progress and advancement is striking in its complexity and beautiful in its solidity and oneness of purpose. Bit by bit as new territory was added new provinces were carved out. British Columbia came first with nearly two thousand miles of unbroken wilderness between the east and the west. Then the transcontinental railway entered the picture, and with nothing between the Great Lakes and the Rocky Mountains that was claimed or thought to be valuable, the road was laid for the C.P.R., a transportation system that spans the globe with rail, steamship and air service, and that keeps pace with the advance of science and

invention by changes in its system and equipment. And, as the iron horse moved westward colonization followed it and Manitoba was soon carved out of the prairie and a few years later Prince Edward Island was added, which brought to sever the province in the Confederation of the Dominion of Canada.

Time marched on, the Riel rebellion was subdued without firing a shot, the Indian raids were peaceably and bloodlessly handled in most cases by the fine work of the R.C.M.P. The virgin forest and prairie was gradually giving way to the plow and wheat field of the settler as population pressed ever westward for new fields to conquer new sunset to enjoy.

In 1905 the North West Territories, which had been represented in the Dominion House by a very few members, made their cries loud enough that they were heard at Ottawa and the Provinces of Alberta and Saskatchewan were given their autonomy and set up as governing units in their own affairs of the great Confederation.

And so today we see an empire which is the glory of the people who make it up and the envy of nearly every other nation under heaven. A nation with sufficient of the conservatism of the Mother Country, and the liberalism of the new world, to be eager to grasp every new thing in science and adventure, in both material and metal spheres and yet by the trial and error method to weigh carefully and discard anything that might tend to unbalance Canadianism. And so Canada stands to day a solid and well governed Dominion with diverse interests as to the east and west, with mixed population and language over its vast borders, and yet a population of Canadians that responds almost automatically to everything asked of them that is best for Canada as a whole in herself and as part of the Great British Empire.

So, on this Dominion Day, let us bow in thanks to a Supreme Being who has ordered our part in life and activities such that we may participate in the privileges and blessings of the broad Dominion of Canada as a nation, and a part of the wonderful empire of freedom of thought and action, on whose domain the sun never sets.

Mary Segal was rushed to the Hospital by Dr. Cameron on Monday night for an appendicitis operation.

Our Edmonton Letter

(By T. B. Windross)

Edmonton, June 27—The political spot light settled on the movement for united action in establishing sane, sound, progressive government in Alberta during the last week. The first meeting of the Unity Council (Provisional) under the leadership of John I. McFarland, was held Thursday and Friday with all members being present and unanimity of purpose evident in the proceedings.

The Council went definitely on record as standing for absolute autonomy for the constituency in the selection of their candidates for the legislature and the management of their own political affairs. The democratic character of the movement was stressed by speaker after speaker during the proceedings and Mr. McFarland himself declared in his opening speech that the movement to succeed must rest on the basis of the will of the people and sound democratic principles.

Council placed itself in its declaration of policy clearly in support of a policy of debt settlement, emphasizing the view that the private and public debt situation presented the main problem to be solved by any future government.

Mr. McFarland stated his sole purpose and aim was to serve the best interest of the people of Alberta as a whole and if it should be considered he was in any way in the way of success for the movement he would be ready instantly to step out of leadership. Among the principles of policy chosen by the council was that the leader of the party in the legislature should only be elected by the elected members themselves not by any political party outside the legislature.

It announced a policy that would foster and advance the unity of Canada as a whole and not weaken the bonds of confederation. Work of organizing constituency conventions and groups will be carried on largely by individuals interested in the movement as far as the initial start is concerned.

The general declaration of principles of the Unity movement accepted by the delegates is as follows:

"The things which the government that is to restore credit, confidence and self-respect to the people of this Province must do, are indefinite in detail but simple in principle.

"It must provide for the adjustment of existing private debts on the basis of the equities of the interested parties and ability to pay, and for justice and equity between debtor and creditor in all future transactions. "Public obligations must be honest, just, and when this is done, the burden can be lightened by taking advantage of lower current interest rates.

"It must recognize the fact that the payment of taxes is an investment in public service and

that such service is strictly limited by the ability of the taxpayer to pay. Having this in mind it must be prepared to insist at all times upon the greatest measure of economy, consistent with justice and efficiency in every phase of public activity including the make-up of the legislative Assembly and the government itself.

"When these matters have been faced honestly and fairly, the way will have been prepared for a greater measure of public benefit and service than can be realized in any other way.

"The Provincial Government, while maintaining its rights and fulfilling its responsibilities under the British North America Act as far as lies within its power, and within its constitutional limits, should work in co-operation and harmony with the Dominion Government, not only in matters herein enumerated but in all matters which come up for consideration or action, in order to assist in the building up and fostering of the Unity of Canada as a whole."

In its more detailed statement of policy suggested for constituent bodies but not entered upon at the council favors substantial reduction in members of the legislature and a lower sessional indemnity of \$1,000 instead of \$2,000 received now by Social Credit members; institution of proper business methods in administration. It declared that in settlement of the private debt problem, "a moratorium does not solve debt problems, but merely delays solution."

The Social Credit caucus met again Monday and Tuesday and it is expected will decide on the date for a fall session of the legislature, probably in August; by the time this is printed the caucus will have concluded its deliberations and momentous decisions are reported to be in the offing as a result of its work.

There are rumors floating about the Parliament Buildings even among Social Credit sources of information that strenuous discussions are likely at the caucus with considerable criticism of the government and the Social Credit Board for what is considered by many rank and file members as the ill advised Saskatchewan adventure for which blame is being laid on Major C. H. Douglas, Premier Aberhart and the Social Credit Board, but insurgencies in the Social Credit caucus have been smothered over before and that may happen again.

Mr. and Mrs. W. L. Shields of New Dayton, with their sons Leonard and Harold and the wives of the two boys were Raymond visitors on Sunday.

NEWS NOTES

Mr. and Mrs. L. Renan Pack left today on a two week's vacation trip.

Lee and Gordon Brewerton are in Calgary on business. Lee drove to Cardston early Tuesday morning to meet Gordon.

A lady with a huge brown paper parcel came out of a chiropractor's establishment. She was furiously angry and said to her friend awaiting her: "Calls himself a chiropractor and can't stuff a dog."

Mary Jane: "Mother, they are going to teach us domestic science at school now."

Mother: "Don't you mean domestic science?"

Father: "There is a here hope our little girl means what she is saying."

WATCH CLOSELY!

The professor of chemistry was giving a lesson in the powers of different explosives.

"This," he explained, "is one of the most dangerous explosives. If I am in the slightest degree wrong in my experiment, we may be blown through the roof. Kindly come a little closer, so that you may follow me better."

BORROWING FOR PROFIT in the Dairy Industry

Profitable operations in the dairy business largely depend upon wise management. Competition is keen and good managers will borrow at the Bank, if necessary, to improve and maintain the quality of the herd, provide for scientific feeding and stabling, and keep essential equipment up-to-date and well-conditioned.

The Bank of Montreal is interested in such constructive efforts by

dairymen. Our branch managers, familiar with conditions and requirements in this important industry, welcome applications for loans, to finance improvements.

The Bank of Montreal is also interested in the organization and operation of Boys' and Girls' Calf and Swine Clubs, and welcomes the opportunity to discuss their requirements.

Up in the clouds

by Beulah Earle

Instalment Twenty Eight

Monty Wallace has just arrived in California, having broken the East-West cross country airplane record. Natalie Wade, mistaken for him by a newspaper reporter, writes the exclusive account of Monty's arrival, and succeeds in securing a trial job with a paper in exchange for the story. Natalie becomes attached to Monty.

Although she discovers Monty's love for her is not sincere, Natalie admits that she loves him. She is assigned by her paper to report Monty's activities for publication. Jimmy Hale, the newspaper's photographer, becomes Natalie's co-worker.

Natalie interviews Jabe Marion, a wealthy airplane builder, who decides to build a record-breaking 'round the world plane for Monty. Marion's daughter, Sunny, exquisitely beautiful, is attracted to Monty. She invites Natalie to dine with her, when they meet the aviator unexpectedly.

Natalie discovers that Sunny is jealous of her friendship with Monty, and that she is trying to prevent them from being alone. After driving to a mountain resort with Sunny and Jimmy, Monty again declares his love for Natalie.

Sunny attempts to drive Natalie from Monty's attention by climbing a high wall. She almost loses her balance and is pulled back by Monty. Jimmy later asks Natalie to consider his love for her if she refuses Monty.

Natalie induces Monty to set out with her in an airplane search for two missing aviators. At dusk Monty lands the plane in the open country, where he and Natalie must spend the night.

Resuming the search in the morning, they finally locate the fliers. Natalie wires the story to her paper. That night at dinner, Marion announces a non-stop 'round the world flight, with Monty piloting the new plane, 'Sunny Marion.'

Monty's plan is to have ten re-fuelling stations along the route, where pilots are to go aloft to refuel his plane. Monty flies with Natalie to New York,

but they are soon engaged in a tussle with autograph seekers.

"What makes you think she has anything to expose?" parried Monty.

"I know—I know it's all some terrible plot," cried Sunny, "but don't you see—she'll take any advantage to force you to pay her off! This would be playing right into her hands!"

"You don't think she'd try to make a public scene before I had a chance to pay off quietly, do you?" Monty reasoned.

"You don't understand—she'll be there, if only to be able to threaten you!"

Monty thought little of Sunny's argument. He turned again to go. Sunny fastened herself on his arm, attempting to drag him back. Her insistence made Monty wonder.

"Why shouldn't I let her make a scene?" he exclaimed. "She won't get anywhere. I could have her thrown in jail in five minutes because I know she hasn't any proof—phony or otherwise—of what she's trying to say!"

"But she'll tell about me!" Sunny shrieked. And in that instant she knew her secret was out.

Monty stared at her for a moment, then asked:

"Tell about—about what?" he demanded.

"Oh, I might as well tell you now—it's too late to cover anything up!" Sunny was sobbing. Monty led her back to a chair. There, seated together, he held her tightly as she sought to speak. Finding her voice she continued:

"I know this girl—and she's a fake. She never married you and she said as much to me right here this afternoon. But she does know me. She was in a gambling house in New York when I went slumming with a party of friends. We were hardly in the place when it was raided. She's always held it over me. She now I'd give anything to keep Father from knowing how she wanted me to get you to pay her some money to hush up a scandal. If I didn't she threatened to tell Father and get all three of us mixed up in a dreadful mess."

and horror-stricken countenance.

"Monty!—Sunny!" was all Natalie could say. Her eyes welled with tears. Monty lifted Sunny to her feet and they both ran to Natalie.

"Nal!" Monty called. "You wasn't—you can't think that— But Natalie had groped her way out to the front entrance. She opened the door only to find it barred by Jimmy who had just returned from a picture assignment for Uptown.

"Why Natalie!" Jimmy exclaimed. "What's the matter—why the weeps?"

"It's—they're—in there," Natalie sobbed, and pushing Jimmy to one side started for the elevator. Jimmy ran into the next room. One glance at Monty and Sunny and the awful suspicion clutched at his brain. His fist tightened in anger but the thought that Natalie had been hurt and was even now fleeing, he knew not where, prompted him to waste no time.

"You can't—and you—you said you loved me!" he hissed. He looked at them both, then strode from the room, slightly bewildered for they had both been dumbfounded at the untoward turn of events.

Monty found himself first. Catching Sunny's hand he urged her forward.

"We must find them and tell them the truth!"

"Why bother?" she sobbed. "They'd never believe us, ever!"

"But they must!" Monty insisted.

"They simply must!"

Sunny turned her face, eyes brimming.

"I guess we'll have to take each other now," she said, smiling weakly. Monty sat down beside her, he took her hand, then passed his arm around her.

"Maybe we aren't so unlucky after all!" was all he could say.

The door buzzer again. Monty impatiently rose to see who the unwelcome intruder could be.

It was the Mayor's chauffeur.

The car was downstairs.

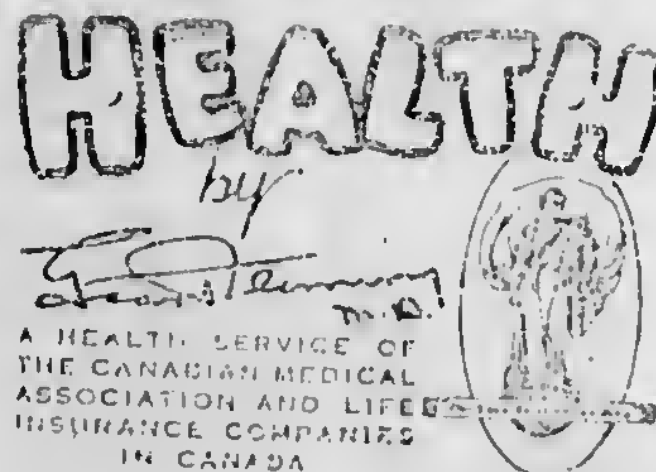

"I'll be—we'll be with you in five minutes!" Monty promised. Then he ran back to Sunny.

"Come on, little girl," he

shouted gaily, "we're going to the Mayor's own party—and you'll be the queen bee of the evening!"

Sunny looked at Monty incredulously. She could hardly believe her ears. Then slowly the realization came that Monty had made the all-important decision. Happiness seemed to burst in her heart but there were no words to give it expression.

WHAT TO EAT TO BE HEALTHY

NUMBER FIVE MINERALS

No less than twelve minerals are required for an adequate diet, but from a practical standpoint we need only be concerned with a supply of three of them, because in our diet as at all a reasonable one, it will contain adequate amounts of the other nine. The three minerals that we must watch are:

CALCIUM, the lack of which causes defective bones and teeth.

IRON, the lack of which causes anaemia.

IODINE, the lack of which causes goitre.

There is a constant storage and use of calcium in the bones and a person may appear in the best of health, yet his bones may not contain as much calcium as they should. In time this deficiency will interfere with the health. For example,

a pregnant woman is likely to suffer from tooth decay because there is a tremendous drain on her calcium resources. If she does not have an adequate amount in her diet, nature takes it out of her bones and teeth.

Our greatest sources of calcium are milk and milk products. To get an adequate amount, adults should consume at least a quart of milk a day. The growing child who is building new bones should take a pint and a half of milk. Cheese is an excellent source of calcium, too.

Iron is obtained largely from vegetables and fruits. Other sources are eggs, liver and kidney.

Iodine is obtained largely from sea foods. People who live remote from the sea have to depend largely upon iodized salt as their source of this mineral food.

The following foods give you minerals:

Milk and cheese, eggs, liver, and kidney, leafy vegetables, such as celery, lettuce and cabbage, also fruits and iodized salt.

Remember—milk and cheese for calcium; eggs, liver, kidney, vegetable and fruits for iron.

Questions concerning health and iodized salt for iodine, addressed to the Canadian Medical Association, 181 College Street, Toronto, will be answered personally by letter.

NEWS NOTES

Heber Oles was painting J. Hervey's blacksmith shop on Tuesday.

School is dismissing today. The finals for the higher grades in High school, and the public school students requiring special coaching being turned loose this afternoon.

Ray Knight brought his champion horses in for the ranch of Sunday. During the week several of the teams were on the streets. They are a nice looking bunch and should have the necessary speed to make a fast and thrilling Stammed race.

Judge: "Speeding, eh? How many times have you been before me?"

Reader: "None, Your Honor. I've tried to pass you on the road once or twice, but my old bus will only do fifty-five."

Trail Riders Plan Perfect Mountain Holiday

The Trail Riders of the Canadian Rockies have an annual holiday trip set aside for the end of July when they will make a five-day exploratory trip through the picturesque section of the Rocky Mountains northwest of Banff.

The society, which was organized to open new trails through the mountains and give members an unrivalled mountain holiday at the lowest possible cost, has made many interesting trips in the past, but few with more promise than this year's from July 29 to August 2. They will ride over high passes and down into deep valleys in the shadow of 10,000-foot peaks; they will find time for fishing, or

PARENTS

Give your Child this Advantage

SOMETHING every parent of a growing child should know—a survey of 10,000 school children has proved that a typewriter, used for homework, improves general school work enormously. Spelling, reading and composition are especially bettered. Why deny your child this help, when it costs so little?

Not only your children, but you, and all your family, will enjoy using the Remington Portable Typewriter at home.

Raymond, Alta.

"But she'll tell about me!" Sunny shrieked

where he will begin the flight eastward. They are followed by Jimmy and Sunny.

The day before the flight, Monty once more declares his love to Natalie.

This time the flight is eminently successful although a false report makes Natalie, Jimmy and Mack uneasy for a few hours. With the news that Monty is flying straight for Vancouver without stopping at Nome, preparations are rushed for a welcome reception when Monty lands at the airport.

Natalie rushes home to rest a few hours before meeting Monty. Sunny and Jimmy drive her to the airport. Before they leave Natalie's apartment, Natalie discovers Sunny and Jimmy in each other's arms. They announce their intention to wed. Dashing to the airport, Natalie is waiting when Monty lands

It was probably the most straightforward speech Sunny had ever made in her life. The simple, direct manner of the confession brought Monty quickly to her aid.

"You poor kid!" were Monty's words as he sought to comfort her.

"Why didn't you tell me this in the first place instead of beating around the bush with all this 'I Love You' stuff!"

"I'm sorry," was all Sunny could say. Monty knew she was.

Absorbed by their own situation, neither Monty nor Sunny had heard the door buzzer, nor its opening and closing. They became conscious of another's presence only when Natalie walked to the center of the room. Monty's arm still held the girl in close embrace. They both looked up into Natalie's surprised
